

## Update on play equipment.

Cllr Janet Elnaugh

I have been in contact with two companies with regard to new play equipment on the Cricket area.

Creative Play have sent a quote which I have attached to my pre meeting email, the quote is for two items (vary in cost greatly) so we can consider the budget available.

Playdale are visiting the site on 30<sup>th</sup> September (happy for anyone else to come along – please) they will survey the site prior to quoting.

Both companies manufacture play equipment that will fit in with the style of the existing equipment.

It would be really useful to know what the budget is from the PC so we can gauge what external funding we need to seek, with Covid I am anticipating this will be a tricky time to request money from any company (with the exception of Amazon!)
