

Drinkstone Parish Council - Footpaths

Councillor Portfolios : Footpaths for the Ordinary Meeting Dated 8th June 2021

General

Nothing major to report. The footpaths are all passable. With the recent rain, there has been considerable growth in the vegetation on either side of the paths. Though the majority are well-trodden, some may become impassable if the grass continues to grow. I plan to walk all the footpaths and trim any paths over the next week or so where I think this may become an issue.

I am yet to contact MSC with regards to the broken bridge and stile - as discussed at the last meeting - to ask when either are likely to be fixed, as well as to clarify whose responsibility it is to repair the stile. I will draw up a letter with Jane, and hopefully have a response to share at the next meeting.

Repairs

Many Thanks to Cllr Selvey for replacing one of the footpaths signs on the footpath from Garden House to Clopton Green.

Equipment

To make sure it is fit for use over the coming weeks, the push strimmer owned by the Parish Council has been serviced by Tony Bland. He has changed the oil and cleared all the filters out free of charge. Many thanks to him for doing this.

Prepared by Cllr Emily Elnaugh
