

Drinkstone Parish Council, Highways

Report to the Parish Council Meeting Dated 30th June 2025.

Agenda Item; Councillor portfolios

Below is an update on the state of roads, this is based on information received from Suffolk County Council and Anglian Water.

The closure on Park Road is part of the pre-patching work scheduled here and other locations within the village. This is the works discussed between Drinkstone PC and SCC a few months ago.

The pre-patching is taking place during this financial year (25/26), ahead of resurfacing in the next financial year (26/27).

The broken culvert/drain cover is still with SCC's Drainage Team for their prioritisation. They have been chased as this repair has been waiting a long time.

With regards to the water leak on Beyton Road, Anglian Water have received reports of this on a handful of occasions and have tested the water for chlorine. Chlorine is not detected so the assumption is that this is natural water flow.

Cllr Paul Selvey,
Chair Drinkstone PC.
