ENQUIRY FROM Michael Walton

QUOTED BY Sarah Hallam

CUSTOMER ID D0161

LINE	QTY	UNIT	PART ID	DESCRIPTION / COMMENTS	UNIT PRICE	TOTAL PRICE
				<p>before re-attaching the rope climbing wall and back filling the surface area with the existing top soil and turf</p> <p>Remove and dispose of the existing ramp base board and half round stepping logs and replace these with a new sheet of hexagrip and x5 half round timber stepping logs, both cut to size on site, fixing all parts with new fixings - Approx. measurements: Hexagrip ramp - 750mm x 1800mm and half round timber stepping logs - x5 @ 750mm x 125mm</p> <p>Replace all missing/damaged bolt cap covers, particularly on the timber/rope balance bridge - Based on a requirement of x5 being needed</p> <p>Remove all the exposed and sharp staples in the timber upright posts sanding down the localised areas where required, by the pull up handles at the monkey bars - Costs included in the labour charge</p> <p>**Note: The above repairs have been recommended as requested, but it is our belief that this unit is now end of life and requires removal both for cost effectiveness and durability purposes. Should you wish to pursue this course</p>
