

Drinkstone Parish Council Report

Alice Robinson

Allotments, Recreation ground/ cricket and village assets

Allotments

There has been a request from Some allotment Holders on Rattlesden Road to look at deer fencing for the protection of crops from wild deer/ wildlife. There has been some reservations on this from Gedding Road residents and allotment holders over the risk to the aesthetics of surrounding properties, and the cost that this might bring to the council for the sake of a few residents when there are feasible alternatives to a perimeter fence.

Daphne Youngs has gathered some quotes for discussion at the PC meeting on 4th November.

This has been placed on the PC meeting agenda.

Village assets:

Defibrillator:

Defibrillator at the village hall has been checked and safety checks completed. This has been entered on the national database to certify that the Defibrillator is still available on the national circuit.

Discussions have been had within the PC after suggestion to use CIL funds to pay for another defibrillator to be housed in the phone box at the other end of the village. Quotes for defibrillators and housing have been gathered by the Parish Clerk.

Village Cricket

Playground quotes gathered – Separate item for discussion on the agenda.
